EDUCATION

Natural Sciences, Sekolah Dian Harapan Daan Mogot

2019– 2022

- Grade: 86.52

LICENSES AND CERTIFICATIONS

Algorithm Bootcamp – Vice Captain of Group D

30 July -26 Aug 2022

- Evaluated 6 weekly meeting and made the weekly progress report
- Delegated tasks based on discussion and understanding of each members' skillset
- Made half of the proposal of the project and formulated the codes for the calculator menu and main menu of the program

English First Standardized English Test – 73/100 (C2 Proficient)

4 Aug 2022

- Listening Section – 71/ 100 (C2 Proficient)
- Reading Section – 75/ 100 (C2 Proficient)

MATLAB Basics Training Course

Aug 2022

- Participated in the course and finished all the basic coding problems (One of the cases was manually entering arrays to make a matrix and creating evenly-spaced vectors) and learned the algorithms needed to solve the problems

Lifetime Course for Competitive Programming in C++ (2022)

Sep 2022

- Participated in the course and finished all the coding problems (One of the cases was removing a certain digit in a number and distinguishing which digit should be removed to get the maximum value of that number after removing a single digit) and learned basic-mid algorithms needed to solve more complicated problems

PROJECTS

Algorithm Bootcamp – Chatbot

30 July -26 Aug 2022

- Developed a chatbot with two other team members using C++ that has a built-in calculator and a minigame with two functions which is the calculating and entertainment function.
- Learned how to make codes by using modules and recursions, how to merge codes into a simple and compact version, and how to store data and read from a file.
